

# Power telephony

**swyx** The perfect IP-PBX solution for all company sizes.

# Powertelephony is easy

SwyxWare is the software PBX for Microsoft® Windows® Server that fits perfectly into your present infrastructure. You can set it up as an expansion to your existing PBX or as a complete solution for the whole company. Integrate your separate voice and data networks and take advantage of superior SwyxWare features.

- **Software based IP-PBX**  
for Microsoft® Windows® 2000/2003 Server
- **Installation on PC hardware**  
No proprietary manufacturer hardware
- **Easy to extend**  
Extensions by software updates
- **For small enterprises starting with 5 employees to large enterprises with more than 500 employees**

# Powertelephony saves money

With SwyxWare the administration of the PBX integrates perfectly into the network management. Changes and adjustments to the telephone system can be handled fast and efficient internally.

- **Easy Windows administration of the PBX**  
Moves within a company no longer require a major administrative expenditure
- **Home/Office Networking:** Calls between subsidiaries or mobile workers via IP-Link
- **Cut telephone costs** using IP connections, e.g. DSL flat rate
- **Music on hold and Voicemail**  
without limitations
- **Full cost control**  
and comfortable analysis of call charges

# Powertelephony increases flexibility

With SwyxWare you will never lose a call again. Intelligent call management increases your productivity and saves time. You can dial directly from any windows application. Receive all your voicemails and faxes in your email inbox.

- **Convenient call management** with the Call Routing Manager
- **Voicemail and Fax** for every user
- Telephony integration of **Microsoft® Outlook®** and **Lotus Notes**
- **Remote control of the telephone environment**  
e.g. activate the redirection to your mobile
- **Interactive Voice Response (IVR)**  
sends the customer to the right contact in the company
- **Wide range of different telephony devices**  
Desktop phones, PC telephony with handset or headset

## Forget about other solutions!

Forget about traditional telephone solutions and get more for your money with **Power**telephony from Swyx. Outstanding features like intelligent call management, integrated voicemail/fax and the easy to use telephone environment, increase the overall productivity of staff members.

SwyxWare is a complete solution that gives you all of the components for your business telephony needs: the essential software and hardware on the server side and a variety of devices for the end user giving you the choice between PC telephony and standard desktop phones.

Are **YOU** ready for  
**Power**telephony?
